

HOW TO FOLD A BRAIN TO BRAIN PAPER PLANE

1. Place paper with Brain to Brain Paper Plane Graphic facing up

2. Fold paper down center by bringing left edge of paper over to line up with right edge and press flat.

3. Unfold paper again and bring top right corner down to meet center line, and press flat.

4. Now bring left top corner down to meet center line, and press flat.

5. Re-fold along center line again. Then turn paper sideways (ninety degrees) for next steps

6. Take the leading edge that angles to a point, and bring it down to align with bottom fold, and press flat.

7. Turn paper over and repeat with that side.

8. Now bring the leading edge of that side down to align with the bottom fold.

9. Turn paper over and repeat with that side.

10. Unfold outer folds to form the wings.

11. Hold near the front.

12. FLY!
